23 **Deviation of Earning Per Share (EPS), NOCFPS & NAVPS**

a) During the quarter, EPS is not re-stated because of Number of shares are unchanged compare to the previous year & No stock dividend was declared by the Company. On the other hand, EPS is increased for reducing operating loss of the quarter compared to the previous quarter(2nd Quarter 2024-2025).

b) Due to loss of the quarter, Net Asset Value per share (NAVPS) are decreased from Tk 64.73 to Tk 61.90

c) During the quarter Net sales decreased with compared to previous quarter(2nd Quarter 2024-2025) by Tk 2.34 Lac. On the other hand, Non operating/Other income also decreased by Tk 6.25 lac & other expenditure decrease compare to previous quarter(2nd Quarter 2024-2025). So NOCFPS increase.

24 Interest on BCIC Loan has increased compared to previous year (2nd Quarter FY. 2024-2025) due to take loan from BCIC by UGSFL.

25 **Discontinuation of Production :**

Production process was stopped temporarily from 30.08.2023 to till date due to various complication of Furnace(Process) which hampered the production. As per Expert opinion & decision of 360th No. Board of Directors meeting held on 24.08.2023 that production of Factory furnace stopped by disconnecting Gas supply to save valuable energy(Gas) & decrease the loss of the factory. The decision of the Board of Directors of UGSFL has been sent to the Ministry of Industries for further direction.

26 **Utility & Other Administrative Expenses :**

As Factory is not operation .So all expenses incurred during the period from 1st July 2025 to December 31.2025 are shown as general expenses instead of overhead expenses.

27 Technology used in the factory is the oldest & outdated with compared to modern technology all around the world. Due to old technology and worn out machineries the energy consumption is very high which increases the manufacturing cost in with respect to the selling price. The product quality is not upto the mark comparing to the modern manufacturing process. As a result, factory has incurred loss .To overcome the existing loss condition, the factory management has taken a plan to replace the old technology production process by a new one. The Board of Directors of UGSFL has been discussed in several times to establish more viable & energy efficient new container glass or another alternative profitable plant inside UGSFL premises.Hopefully, it will change the present situation & New plant will be viable & profitable.
